POLISHED AND SATINED  
STAINLESS STEEL AISI 304/1.4301-V2A

**PROEDGE AC** consists of a vast range of corner guard profiles used to protect and cover the most exposed part of any type of wall covering and existing edges. **PROEDGE AC** is made in polished stainless steel in four different widths to meet all technical and aesthetic requirements. Available with self-adhesive backing, its high impact-absorption properties ensure that it complies with compulsory EUROPEAN standards for covering chipped or hazardous edges. It is mainly used in the industrial, food and commercial sectors and where traffic is intense.
